MAIL BID LIST #14

CLOSING

MAR 22 1987

Look for a strong consignment of Sugar Central tokens from Cuba as well as a good representation of German tokens, Western Saloon Checks and U.S. Advertising Mirrors. Several older Palestine settlement tokens are present as well as another French Foreign Legion piece and one from German East Africa. The budget conscious can find a number of aggregated lots of counters to pick through. Telephone token buffs can find a collection of Goetz/Yale pieces and Italian tokens, all different. Please note that I have raised the Minimum Bid or Reserve to at least \$3 for all lots. I probably will not raise this minimum again for awhile. Good collecting to you!

Lot descriptions are of necessity brief and oriented to numismatists. Sizes are in millimeters, although larger paper pieces are often in inches. Tokens are round unless otherwise indicated. Materials are shown as Al, Br, Cop, Ir, Ld, Nkl, Zn or Pl(astic). When parentheses are used it means that the information enclosed is not in the token legend or describes some device on the token. Catalog numbers are often used to aid description, e.g. (L#101.3) and refer to the most standard U.S. work on the topic at hand. Since listing each reference would be too cumbersome, please write if you need to know which. Dollar values written simply (\$5) mean a suggested bidding range. An MB enclosed with a dollar value in parentheses (e.g. (MB\$25)) means a "Reserve" or "Minimum Bid". FP means that several pieces are available and sell for fixed prices only. Grading can be only approximate in a series as varied as tokens. I try to be conservative and in most cases have reduced items by one grade where there is any question in my mind.

From time to time more than one specimen of a lot is submitted on consignment. This happens with less than 1% of the lots, and mainly with items selling under \$10. Rather than list each such item, I will offer the other specimen at the winning bid price if it is the same grade and the second bid is within 15% of the top. If the grade is lower, the price will be adjusted. You are under no obligation to purchase in such a case. Comments on my listings and methods of operation are always welcome.

MAIL BID LIST #14

Prices Realized

The highest price was paid for Lot #1, the USA Alfeld and Healey private issue Sales Tax Token at \$286. The original high bid was \$400 with a second bid of \$260, the highest amount paid so far in these auctions for a single item lot. The Luxembourg Lot #794, a WWI private Notgeld brought an even \$100 from a Luxembourg bidder. Lot #135, confirmed as Tanga port in German East Africa, sold at \$135 to a German bidder. Collectors should note also that the condition of the piece as described in the catalog is normal for this series. Palestine Lots #838 and #839, Mikweh Israel and Zichron Yacob, brought \$160 and \$120 respectively, probably a low sale price in comparison to those received by larger firms.

Lot #76A, the USA Jail Tokens, had the highest number of bidders, thirteen, although the sale price was only \$29. Lot #139, a USA Miscellany, had eleven bidders with a sale price of \$25.

Lots not listed received no bids or else were too low for consideration. Sales prices are given in amounts rounded to the nearest dollar although in many cases actual bidding may have been somewhat above or below that amount. Figures in parentheses are the number of bidders for any given lot.

GOOD COLLECTING!

U.S.A.

Tokens were widely used in connection with coal mines in the eastern United States, and very large collections of such checks can be found. They were less widely used in the coal mines of other countries and are considered scarce. The British Hilton Main piece was very likely a voucher for work done, an ID for the miner to collect his pay check. The French piece served as emergency money immediately after WWI and probably circulated locally. The German token states that it is "Strictly for the sale of milk," and was likely used in a company store. See Lots 73, 477, 558, 559, 607, 610.
